Irancy "Les Climats"

[The aromatic power of Pinot Noir expressed by notes of cherry.]

Terroir

Burgundy - Appellation: Irancy. The village of Irancy is situated 15 km away from Auxerre, nestled in a valley whose slopes are adorned with vineyards and cherry trees. Our clay-limestone terroir consists of clay with varying proportions of limestone. The combination of these localities forms our Irancy vintage "Les Climats." This soil originates from the Kimmeridgian terrain, dating back to the Jurassic period, found within the geological region of Aube.

Area

The total planted area of the Irancy vineyard is 200 hectares. We harvest 15 hectares to produce our Irancy "Les climats".

Annual production

70,000 bottles of Irancy "Les Climats".

Grape variety

Red wine made from 100% Pinot Noir grapes.

Average age of the vine

10 to 40 years

Work in the vineyard

We prune these parcels of vines in simple Guyot. The grapes are harvested at full maturity.

Type of sustainable culture

Throughout the year, soil maintenance is carried out mechanically to avoid chemical weeding.

Winemaking

Once the grapes have been sorted and destemmed, we conduct the alcoholic fermentation in stainless steel tanks with temperature control to regulate the maceration process of the berries. To prevent excessive extraction during maceration, we refrain from punch-downs. Instead, we achieve tannin extraction, color, and specific aromas by gently irrigating the cap of grape skins with daily pump-overs.

Breeding

50% in oak barrels and 50% in stainless steel vats.

Character of the wine

This wine is complex and its tannins are supple, perfectly melted and of great elegance.

Dress

A dark ruby color with bright reflections.

Nose

The juicy cherry stands out and then gives way to stewed fruits type "kirché" black cherry and blackcurrant. The finish is long with a beautiful bitterness.

Tasting

A superb concentration in the mouth, fruity and floral.

Minty notes accompany the fruit and reveal a harmonious score.

Food and wine pairings

It will go perfectly with red meat, grilled meats and cold cuts.

Container available for sale

37.5 cl, 50 cl, 75 cl, 150 cl, et 300 cl
